

Climb to the Top of the Digraph Boxes 4- Beat Your Score Series

These boxes are special; when you put two consonants together to make blends you can still hear the two sounds like gr or st. These DIGRAPHS are magic because when you put the 2 consonants together they make a totally new sound! For example: c+h = ch. Ok here is your mission: climb to the top without being seen and do it in less than a minute or I can't tell you, it is too awful! Do your best- I'm counting on you.
