

20TH NOVEMBER CREATING AN INCLUSIVE LEARNING ENVIRONMENT

Meeting the needs of students with dyslexia and other learning difficulties, Karen Starkiss

Dyslexia is the most common and prevalent of all Learning Disabilities. There are about 10% of students in Australia who are dyslexic and it is also highly probable that a dyslexic child will have at least two other disabilities such as autism, ADHD, dyspraxia, processing impairment.

WORKSHOP CONTENT

- How to recognise that a child is dyslexic
- How to gather evidence and informally identify individual students in class
- Identifying individual learning styles and creating a multi-sensory environment
- To develop a range of strategies to support dyslexic students in class and individually
- Subject Specific support
- Using Technology to support students
- Lots of ideas and practical activities to support learners
- Good websites with free resources to support the teacher and the students

PENINSULA PROGRAMS FOR STUDENTS WITH DISABILITY

The course will be practical and provide ideas, activities and resources that you can use immediately in class. Will include hand-outs and resources
